Forecast for Sunday 14 Apr 2024

Weather: A dry and bright start, with cloud bubbling up through the afternoon, mixed with bright or sunny spells. The odd shower possible in the afternoon, mostly light, with showers becoming more widespread later into the evening alongside strengthening winds. Not quite as warm as late.

Chance of cloud-free hill tops above 600m: Greater than 90% at first, becoming 80% during the afternoon with the showers.

Low cloud and visibility: Cloud bases generally above summits although a chance of some scattered bases briefly around 800m in showers. Visibility excellent, temporarily moderate in any showery outbreaks.

Meteorologist's View

A largely fine day, although feeling a chilly on the tops, especially in the breeze. Warm, windproof layers recommended. Spells of relatively strong spring sunshine could catch out those who aren't wearing appropriate sun protection.

Recent rainfall: measured at Neuadd: altitude 353m

Forecast for Monday 15 Apr 2024

Weather: A windy day with sunny spells and blustery showers. Showers may merge together bringing longer spells of rain, and may be heavy at times too. Hail and perhaps thunder also possible and the odd burst of sleet and wet snow cannot be ruled out above 700m.

Maximum wind: Westerly 35-40 mph, gusting 45-50 mph, isolated 55-60 mph. Strongest gusts near heavy showers.

Chance of cloud-free hill tops 600m: 70%

Low cloud and visibility: Scattered cloud occasionally obscuring tops above 700m, mainly during heavy showers. Good visibility away from these showers, but temporarily dropping to moderate or poor when they occur.

Temperature: **Valleys:** Plus 6 Celsius rising to Plus 10 Celsius.
At 600m: Plus 3 Celsius, lowering to Plus 1 Celsius.
Freezing level: Just above summits, perhaps briefly down to 800m.
